# Introduction

The programming period 2021-2027 has given great and wide emphasis to communication and to the need of regularly informing the wide public on efforts done and goals achieved.

Like most of the Interreg Programmes of the current programming period, Interreg IPA ADRION has joined the Interreg branding initiative coordinated by the Interact Programme, whose main goal is to boost Interreg impact through shared logos and tools and to multiply the effects of communication activities.

The aim of the present guidelines is to support IPA ADRION funded projects in their communication and visibility activities, providing technical elements and practical information on the use of logos and communication material.

This document focuses on the formal requirements when implementing communication activities, as stated in Interreg regulation (EU) 2021/1059 and article 8 of the project subsidy contract.
Being co-financed by public funds, projects must make their funding source public for transparency reasons. As stated in art. 36 of Interreg Regulation, each partner of an Interreg operation shall acknowledge support from an Interreg fund by:

**(a)** publishing on the partner's official website or social media sites, where such sites exist, a short description of the Interreg operation, proportionate to the level of support provided by an Interreg fund, including its aims and results, and highlighting the financial support from the Interreg fund;

**(b)** providing a statement highlighting the support from an Interreg fund in a visible manner on documents and communication material relating to the implementation of the Interreg operation, intended for the general public or for participants;

**(c)** displaying durable plaques or billboards clearly visible to the public, presenting the emblem of the Union in accordance with the technical characteristics laid down in Annex IX of Regulation (EU) 2021/1060, as soon as the physical implementation of an Interreg operation involving physical investment or the purchase of equipment starts or purchased equipment is installed, with regard to operations supported by an Interreg fund, the total cost of which exceeds EUR 100 000;

**(d)** for Interreg operations not falling under point (c), publicly displaying at least one poster of a minimum size A3 or equivalent electronic display with information about the Interreg operation highlighting the support from an Interreg fund, except where the beneficiary is a natural person;

**(e)** for operations of strategic importance and operations whose total cost exceed EUR 5 000 000 organising a communication event and involving the Commission and the responsible managing authority in a timely manner.

**(f)** for operations taking place at the same location, supported by the same or different funding instruments, or where further funding is provided for the same operation at a later date, at least one plaque or billboard shall be displayed.

The following paragraphs provide with details on how to comply with Interreg Regulation to acknowledge the origin and ensure the visibility of the EU funding received.

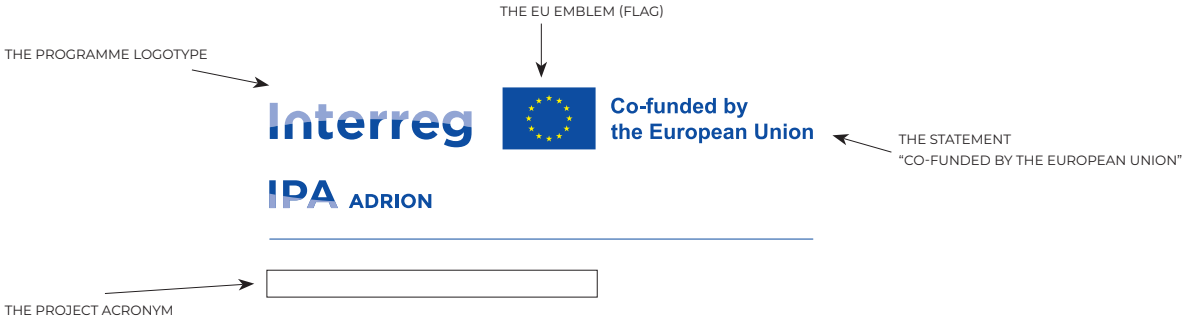

# SECTION 1
# Project logo design

# 1.1 The project logo: graphic specification

The Programme provides each project with a personalised project logo, harmonized with EU guidelines, that must be displayed in all the material and events created/organised by the project. The IPA ADRION pre-defined logo combines EU, Programme and project elements, consisting of:

- **The Programme logotype**
- **The EU emblem (flag)**
- **The statement "Co-funded by the European Union"**
- **The project acronym**

The elements of the logo represent a unit which is defined as invariable. They must not be shown separately. The composition of the logo elements follows specific rules and must not be changed. In all the produced material, the project logo must have a prominent position.
The logos are similar for every funded projects, the only distinctive element is the color of the project's acronym which changes according to the thematic Priority.

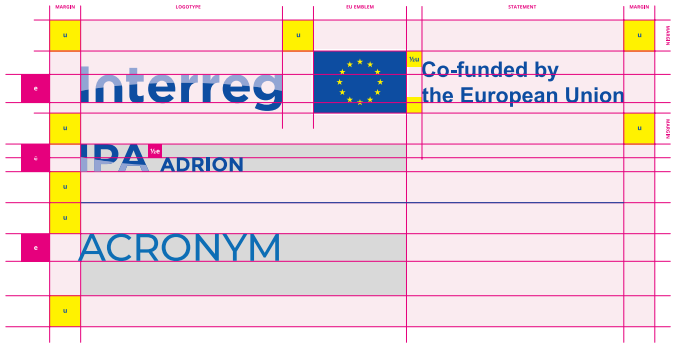

## Basic Unit

The basic unit **(u)** used for the definition of the project logo composition is calculated in reference to the half the height of the EU emblem **(flag)**. This measure is used to define the space between the elements as well as the clear space around the project logo.

## Clear space area

The space between the logotype and the EU emblem equals **1 "u"**. The space between the EU emblem and the statement equals **½ "u"** - not including the white border. A clear space of at least **1 "u"** in height and width must remain around the project logo. Within this area, no other graphic elements or logos may be placed. Likewise, this zone has to be observed for the positioning distance to the page margins. It is highly recommended to increase this space wherever possible.

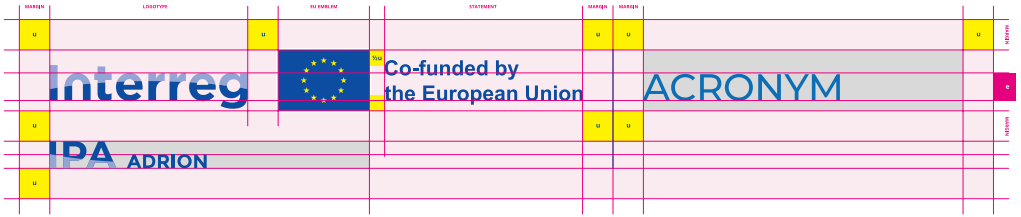

## Projects' acronym custom area

**WIDTH:** the area defined for the project name is equivalent to the width of the Interreg logotype and EU emblem combined (not including the white border).

**HEIGHT:** its maximum height is equivalent to the height of the EU Emblem (not including the white border).

## Acronym's Placement

The standard placement for project names is below the Programme Logo, separated by a thin straight line. The project name is positioned against the top left corner of the custom area.

# 1.2 Colours of the Project Logo

The Project logo is a combination of colours taken from the Programme Logo and and the Interreg thematic priorities.

## Colours of the Programme Logo

**Pantone:** Reflex Blue
**CMYK:** C100 M80 Y0 K0
**RGB:** R00 G51 B153
**Web:** #0d428d

**Pantone:** 2716
**CMYK:** C42 M30 Y0 K0
**RGB:** R160 G174 B232
**Web:** #9fade7

**Pantone:** Yellow
**CMYK:** C0 M0 Y100 K0
**RGB:** R255 G204 B00
**Web:** #fbec4b

## Colours of the project's acronym on the basis of the Programme Priorities

**CMYK 72 / 0 / 43 / 0**
**HEX #18BAA8**
**RGB 24 / 186 / 168**

Supporting a smarter Adriatic and Ionian region

**CMYK 48 / 0 / 89 / 0**
**HEX #9ACA3C**
**RGB 154 / 202 / 60**

Supporting a greener and climate resilient Adriatic and Ionian region

**CMYK 0 / 56 / 77 / 0**
**HEX #F68A42**
**RGB 246 / 138 / 66**

Supporting a carbon neutral and better connected Adriatic and Ionian region

**CMYK 87 / 51 / 0 / 0**
**HEX #0E6EB6**
**RGB 14 / 110 / 182**

Supporting the Governance of the Adriatic-Ionian region

# 1.3 Priority icons

Each IPA ADRION Project falls under an Interreg Priority. The Programme has selected four Priorities whose icons and colours follows the Interreg branding rules.

## Priority icons

SUPPORTING A SMARTER ADRIATIC AND IONIAN REGION

SUPPORTING THE GOVERNANCE OF THE ADRIATIC-IONIAN REGION

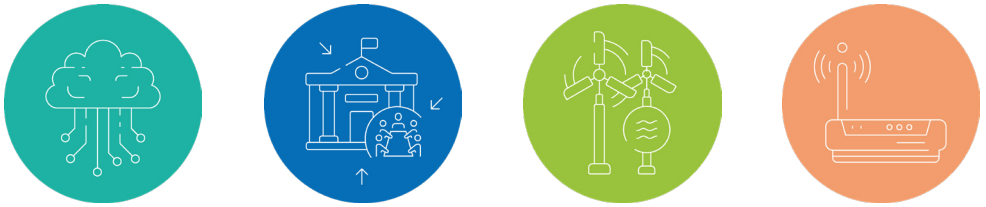

SUPPORTING A GREENER AND CLIMATE RESILIENT ADRIATIC AND IONIAN REGION

SUPPORTING A CARBON NEUTRAL AND BETTER CONNECTED ADRIATIC AND IONIAN REGION

## Full alternative version

## Monochrome icons: positive/negative

## 1.4 Graphics of the Acronym: font and positioning

The acronym of the project is aligned to the left; the font is MONTSERRAT REGULAR, and proportion cannot be changed.

# MONTSERRAT REGULAR

a b c d e f g h i j k l m no p q r s t u v x y z

A B C D E F G H I J K L M NO P Q R S T U V X Y Z

**Ideal Logo Use:**
On white background.

**Allowed logo use:**
In a white box on coloured background or a photo.

# 1.5 Project logo alternative versions

IPA ADRION Programme also provides projects with alternative versions of the logo. Alternative versions can be used if the design or production method does not work with the original version. Examples: interfering background images or colours might reduce the logo visibility or readability, or a production method does not allow 4- colour printing.

The Programme provides with:

- **A "negative" version**
(with a black background)

- **A monochrome version**

- **A horizontal version**
for small spaces where the logo would be too big to fit in the space

Examples of monochrome version

Examples of horizontal version

# 1.6 Incorrect use of the project Logo

In this section examples of wrong use of the logo are provided. These provisions apply to all logos.

1. Do not distort, stretch, slant or modify the logo in any way.
2. Do not delete “IPA ADRION, or other elements of the logo.
3. Do not cut the logo.
4. Do not rotate the logo.
5. Do not separate the flag from the logotype or otherwise change the composition of the logo elements. They are invariable.
6. Do not use outlines around the logo.
7. Do not use the logo in body text.
8. Do not use the logo in any other colour than the standard full colour version or in greyscale on mono-chrome applications.
9. If the logo needs to be placed on a coloured background, it has to be within a white rectangle.
10. Do not change the position of logo elements.

# 1.7 Size and positioning of the project Logo

On publications, the project logo has to be placed in a preminent position on the front (or in exceptional cases authorised by the Programme on the back cover).

The appearance of a logo varies greatly according to the medium it is used in. Therefore, minimum sizes for print, screen and video are specified.

The width used to calculate the dimensions and positioning of the brand is the width of the Project logotype + EU emblem - not including the statement nor the margins. The logo should not be used in any size smaller than the smallest size specified here.

| MEDIA | SMALLEST BRAND WIDTH |
|---|---|
| PRINT A4 PORTRAIT (210×279 MM) | 38,1 mm |
| PRINT A4 LANDSCAPE (279×210 MM) | 38,1 mm |
| PRINT A4 PORTRAIT (148×210 MM) | 38,1 mm |
| PRINT BUSINESS CARD (85×55 MM) | 35,1 mm |
| PRINT SIGN (PLAQUE) PORTRAIT ANY LARGE FORMAT (A2+) | short side 6 mm |
| PRINT SIGN (PLAQUE) LANDSCAPE ANY LARGE FORMAT (A2+) | long side 6 mm |
| SCREEN SMARTPHONE (960×640PX) | 240 px |
| SCREEN TABLET (1024×768 PX) | 240 px |
| SCREEN LAPTOP (1920×1080 PX) | 300 px |
| SCREEN DESKTOP (2560×1440 PX) | 300 px |
| POWERPOINT 16:9 (254×142,88 MM) | 32,6 mm |
| VIDEO FULLHD (1920×1080 PX) | 300 px |
| VIDEO HD (1280×720 PX) | 300 px |
| VIDEO SD (1050×576 PX) | 240 px |

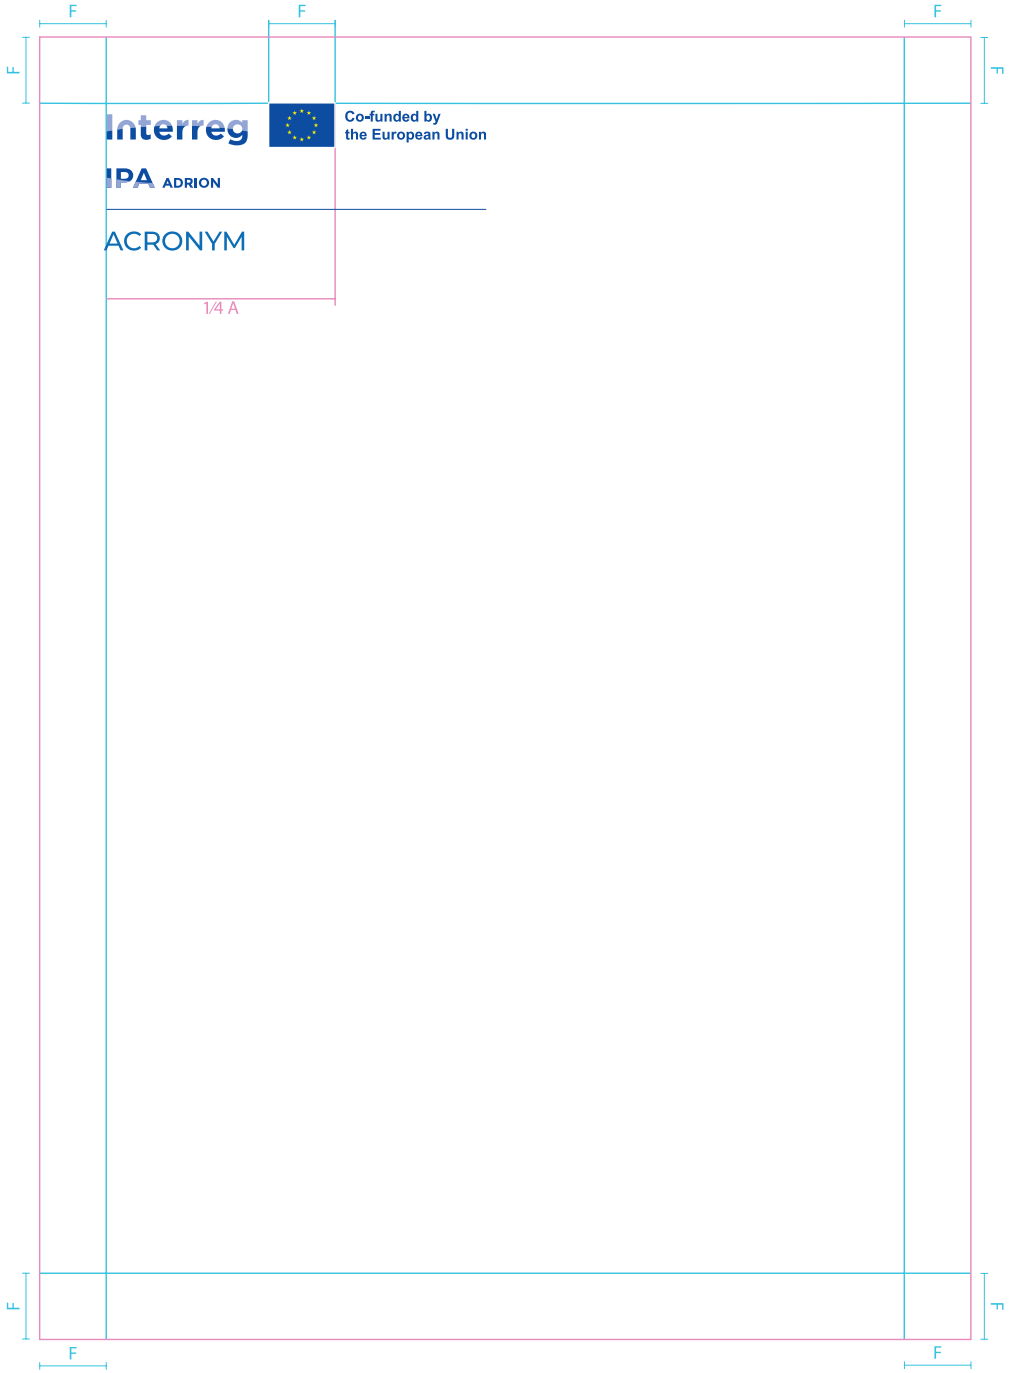

# 1.8 Size of the margins

Three constant rules defines the usage of the size of the project logo, which applies to all formats and supports - whether print or digital, small or big, vertical or horizontal.
The width of the logotype + EU emblem - without the statement - is equivalent to a third (1/4A) of the page's entire width (A).

Once calculated the width of the project logo (1/4 A) in relation to the width of the page (A), the resulting width of the EU emblem (F) is used to determine the size of all external margins, top and bottom, vertically and horizontally.
Project logo: margins = 1F

The project logo should always be positioned directly against the margin lines. The top-left corner position should be preferred, with the left and top margin lines coinciding with the project logo's left and top sides. In the case of having to use the project logo smaller in order to co-exist with other logos or elements, this rule does not have to be applied, and the rule of minimum sizes specified prevails.

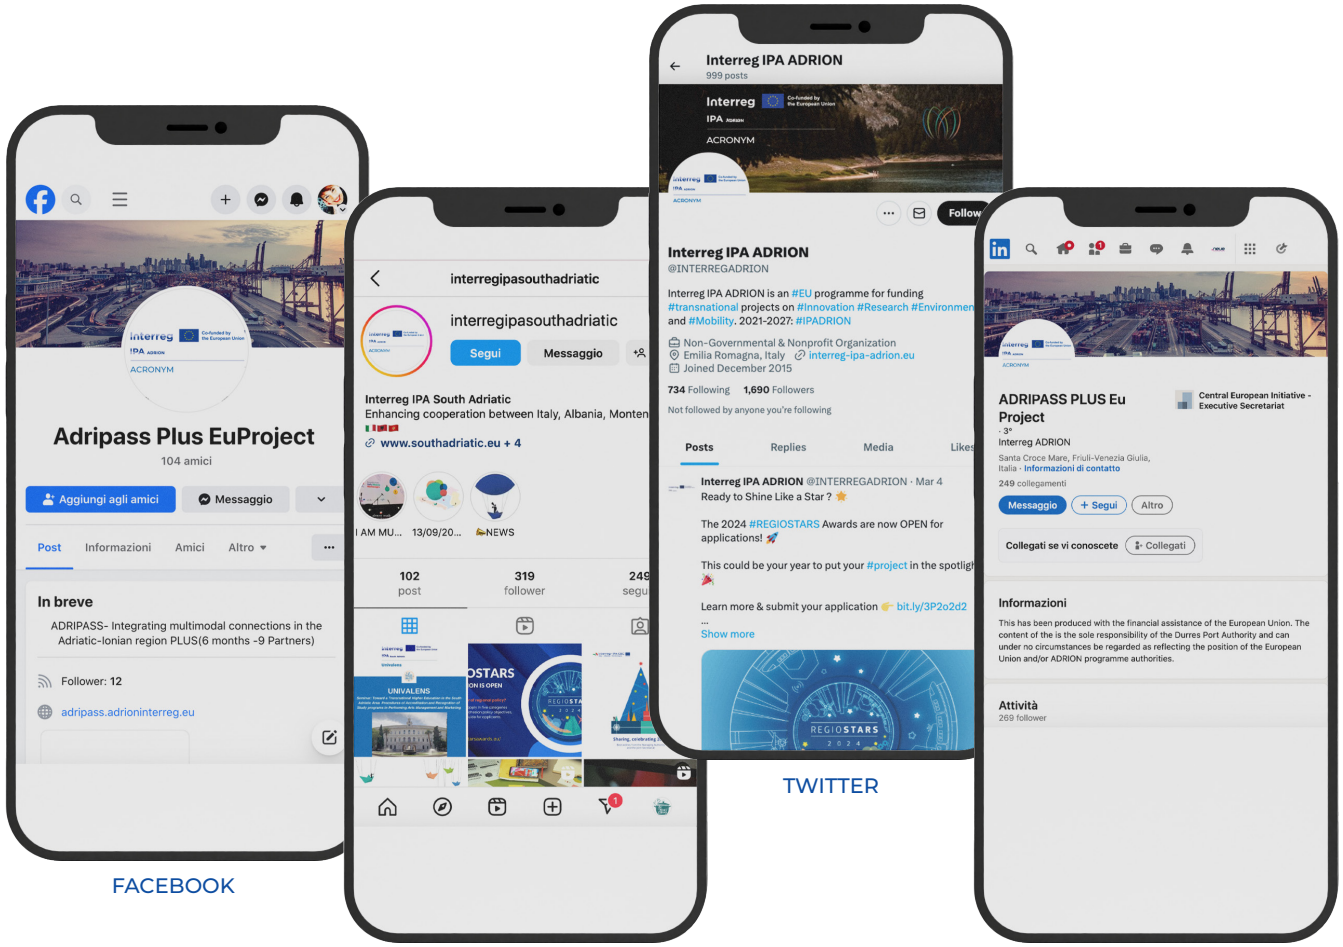

# 1.9 Use of project logo on Social Media

Use one of the options in the examples for your social media platforms:

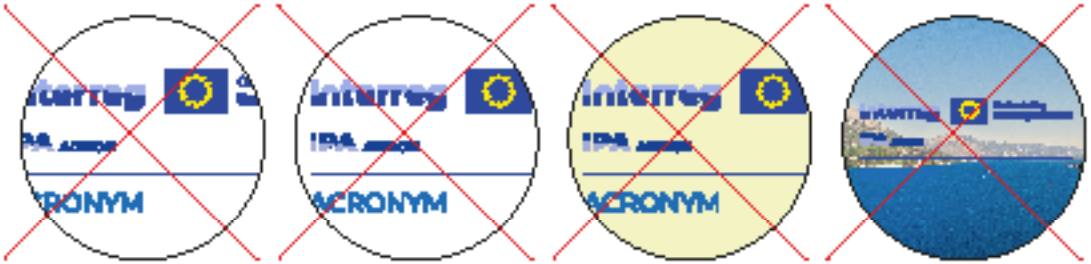

**1.** If the social media platform does not allow banner image (such as Instagram, for example) use the option that includes the entire project logo for your avatar.

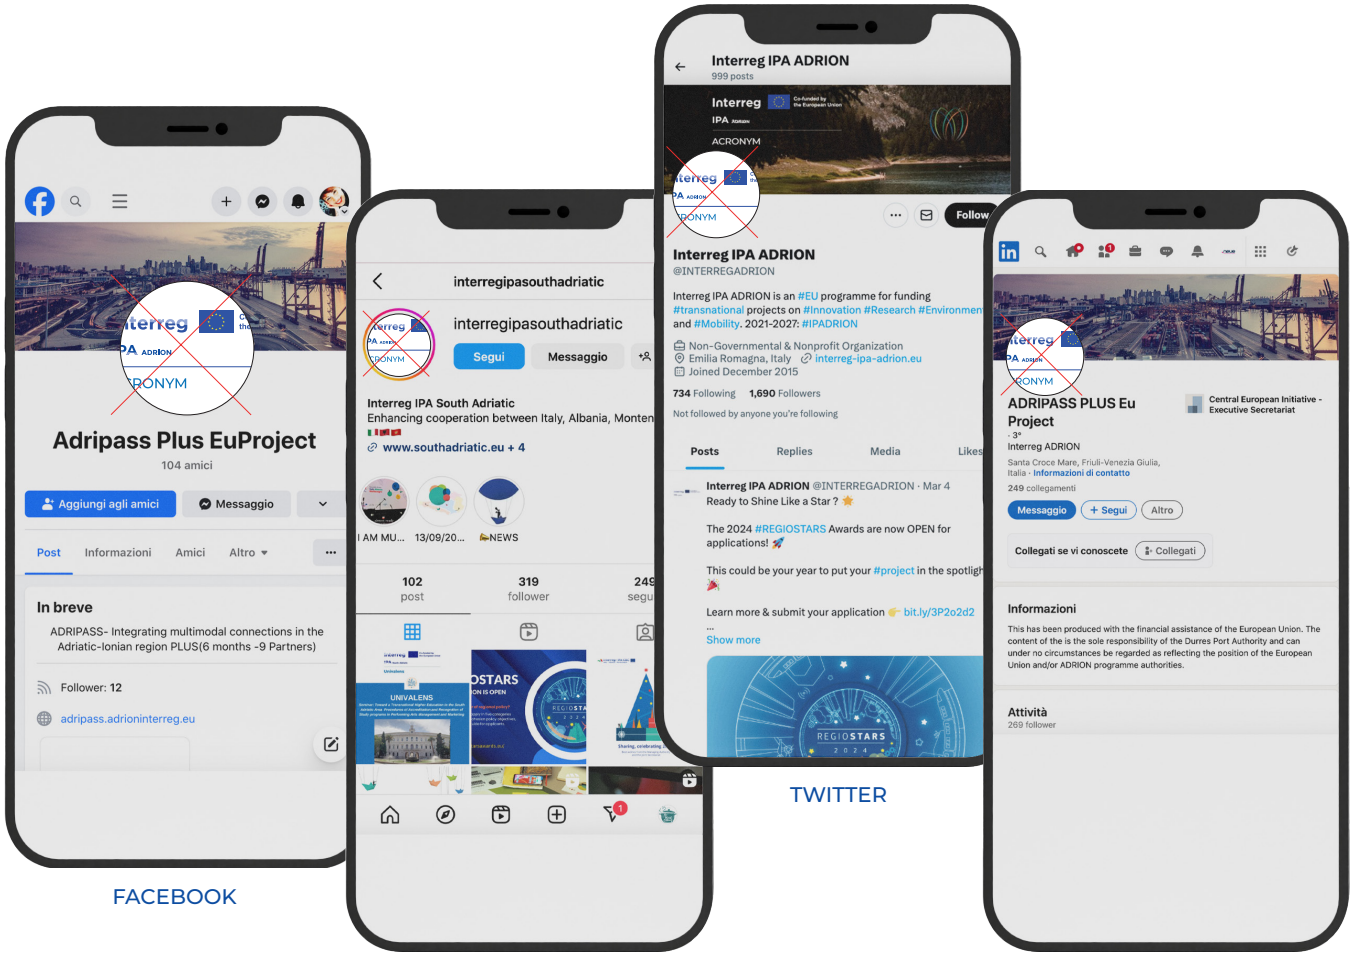

**2.** If the social media platform allows a banner image (Facebook and Twitter in the example) you should include the entire project logo in the social media banner image. Recommended to use the entire project logo for your avatar as well.

## Incorrect use of the project logo on social media

Some examples of incorrect brand usage of social media applications.

# 1.10 Combination with other logos

If other logos are displayed in addition to the project logo, the project logo has to be placed on the same page (or surface) as the other logos. In this case, all other logos displayed on a same page (or surface) cannot be bigger than the European Union flag emblem (which is part of the project logo). When measuring the maximum height, only the height of the flag is taken into account, not the height of the flag + text “European Union”.

In case this is not possible, projects must add another EU flag, whose size must not be smaller than the size of the biggest logo displayed on a same page (or surface). However, all other logos cannot be bigger than the project logo.

A logo with no clear institutional, political or economic link, which is merely a design element as part of a communication action, may be bigger than the EU emblem, provided the European Union involvement remains clearly visible and that the size of other institutional/administrative logos.

Please consult the JS if in doubt about this issue.

# SECTION 2
# Project publicity and visibility rules

# 2.1 Poster

To proper inform the public, at the beginning of project implementation, each project partner has to place at least one poster of minimum size A3 at a location readily visible to the public, likethe entrance area of a building. In order to comply with the regulatory requirements, the IPA ADRION Programme provides with a format of the poster tailored for each Programme Priority. Partners are requested to fill out the poster with the following information:

1. **Project acronym**
2. **full project name**
3. **A short description of the project**
4. **Project budget**
5. **EU funding**
6. **Project duration**
7. **Project partners**

All the other elements already present in the poster should be kept as they are. The language of the poster is English. Please note that the poster cannot be replaced by interactive kiosk, TV, roll-up or banner.

## 2.2 Visibility of Interreg operations on Partner's official websites

All project partners have to provide information about the funded project on their organisations' official websites, where such sites exist, and on their social media channels.

The publication of such information does not necessarily need to be displayed in the homepage of the institutional website. However, the dedicated webpage or section of the institutional website mustbe visible and easily reachable, providing with at least the following information:

- **Short description including project aims and results**
- **Project logo**
- **EU financial support received**
- **Link to the website address**

## 2.3 Statement on the Interreg support

In addition to the project logo, a statement highlighting the support from an Interreg fund shall be displayed in a visible manner on all documents and communication material intended for the general public or for participants to projects events or activities. There are no fixed sentences in this respect, as the most important aspect is that you state that the project is co-funded by the European Union through the Interreg IPA ADRION programme. This sentence is an extra reference to the text included directly in the project logo "Co-funded by the European Union".

## 2.4 Disclaimer

Any notice or publication relating to the project made in any form and by any means, including Internet (e.g.: leaflet, brochure, publication, press release, document, website, and social media profiles), must state that it only reflects the author ´s view and that the Programme authorities are not liable for any use that may be made of the information contained therein.

The following wording for the disclaimer is recommended be used: **"This has been produced with the financial assistance of the European Union. The content of the document/product/ event/website is the sole responsibility of beneficiary's name/name of PP/ LP and can under no circumstances be regarded as reflecting the position of the European Union and/or IPA ADRION programme authorities."**

The disclaimer shall be placed at the bottom of the back page of a single-leaf printed material, or at the bottom of the last or back cover page of a multi-page document.

## 2.5 Billboards and plaques

If a project carries out a physical investments or the purchase of equipment and the project total cost exceeds EUR 100,000, a durable plaque or billboard must be placed in a visible area as soon as the physical investment starts or purchased equipment is installed. Billboards and permanent plaques must include at least the following information:

- **Project logo**
- **Project name**
- **Description of the physical investment or the purchased equipment**
- **Address of the project website**

There is no specification about the template of the plaque or billboard as long as you include the above mentioned information.

Example of Plaque

## 2.6 Stickers

In addition to the above-mentioned rules, for any object purchased by the project, such as PC, cameras or any other small items, it is recommended to apply stickers with the logo of the project in order to ensure that EU support is visible.

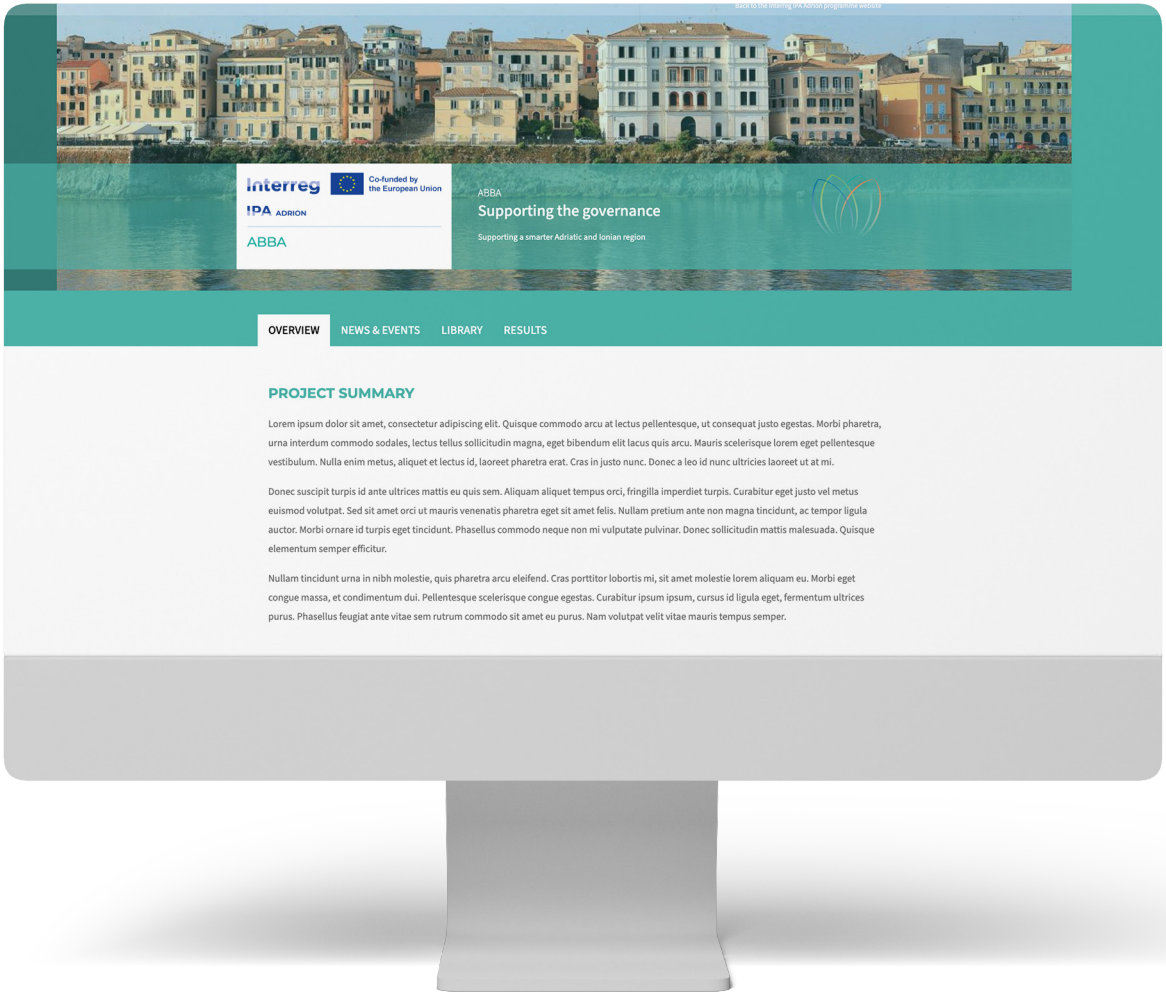

Please note that stickers do not replace billboards or plaque which are compulsary visibility elements in case of physical investment or purchase of equipment.

# 2.7 Project websites

Project websites are provided by the Programme. Each project will receive access to a dedicated project website hosted by the Programme website: **www.interreg-ipa-adrion.eu.**

Each website must be regularly updated by the project partners which will make sure to plan sufficient resources to run the project website. Project websites must be online within six months after approval.

No costs for website construction, design and maintenance are eligible but only those ones related to the content development and update. Please refer to the JS for any additional information deemed necessary to avoid any ineligible costs.

# 2.8 Promotional material

Promotional materials are branded items which are distributed to raise awareness of stakeholders. They may be produced only if: they appear to be strictly necessary to project communication activities and clearly serve the objectives of the project communication strategy. Products must be designed and developed in an environmentally friendly way .
Please note that gifts are not eligible.

## 2.9 Financial consequences linked to branding

Please note that projects risk financial consequences when they disregard EU and programme branding requirements. Where remedial actions have not been put into place, the managing authority may cancel up to 2% of the co-financing granted to the beneficiary concerned.

The financial cuts will be applied taking into account the principle of proportionality. Project partners are invited to read the legal requirements and technical specification set out in the EU regulations: Article 36 of the Interreg Regulation.

The JS offers its support to check the correctness of produced communication deliverables before their final realization to avoid the risk of budget reducti on.
